

WAGE LEADERS TO CUT PAYROLLS

United States Railroad Labor Board Decides to Cut Wages in Accordance With Decreases in the Cost of Living—A Dissenting Opinion Has Been Filed by the Three Members Representing the Labor Group—The Decision Is Expected to Reduce the Present Payrolls of the Railroad About \$48,000,000 Per Year.

Chicago, May 28 (By the A. P.)—The United States Railroad Labor Board today announced its decision on the wages of approximately 400,000 maintenance of way employees of the railways of the country, effective July 1, in accordance with decreases in the cost of living and wages in similar outside employment since the decision of the board last July, was provided for in a decision by the United States railroad labor board and made public tonight.

The decision is expected to reduce present payrolls of the railroads about \$48,000,000 per year and to reduce the pay of the maintenance of way employees by five cents per hour, but important classes of the employees were given a smaller cut. Under the majority head were given a five-cent cut, but other classes usually designated as "common laborers."

The decision was signed by the three railroad members of the board and the three members representing the public group. A dissenting opinion was filed by the three members representing the labor group. The dissenting opinion contended that the wage scale provided in the decision was insufficient to sustain life on the basis of American standards.

The board's decision followed the hearings held on the request of the railroads for wage reductions and the counter request of the maintenance of way employees for increased pay. These hearings began in Chicago March 4 and ended April 29. All except three or four of the large railway systems of the country were affected by the decision, which included all classes of employees except those in train, yard and engine service who were conducting negotiations with the railroads which had not terminated when the hearings began.

In announcing a separate decision for maintenance of way employees in advance of the decision on the other classes, the board complied with a request made by the United Brotherhood of Maintenance of Way Employees and Railroad Shop Laborers, which asked that its case be given precedence and decided as speedily as possible. The classes not embraced in the hearings number from 20 to 35 per cent of the total of railway employees.

In the decision, the board called attention to the fact that the present adjustment was based on previous wage adjustments since 1917, and that since 1917, increased the wages of all classes of employees approximately 60-80 per cent. The board stated that the decision was based on the fact that the cost of living had increased since 1917, and that the wages of the employees had not increased proportionately.

The board's decision was based on the fact that the cost of living had increased since 1917, and that the wages of the employees had not increased proportionately. The board stated that the decision was based on the fact that the cost of living had increased since 1917, and that the wages of the employees had not increased proportionately.

CABLED PARAGRAPHS

To Remove Kaiser's Statue.

Berlin, May 28.—Quarant, in the Prussian province of Saxony, is to remove the statue of Kaiser Wilhelm I. The town council having rendered a decision to that effect.

Two Non-Alcoholic Days Each Week.

Berlin, May 28.—(By the A. P.)—"Mankind, allot yourselves a couple of non-alcoholic days each week." is the motto which should be hung up everywhere, according to a Post-War Nernst, rector of the University of Berlin and a Nobel prize winner.

SENATIONAL DEVELOPMENT IN WARD "BLACKMAIL" CASE

White Plains, N. Y., May 28.—Reports that a mysterious, stylishly dressed young woman had attempted to hire a waiter in a New York restaurant to shoot and kill Walter S. Ward, wealthy Manhattan lawyer, and his wife, Clara Peters, former navy man, was the latest and most sensational development in the case tonight.

This development was combined with the reported statement of a friend of Ward's that the baker was not at his New Rochelle home the night preceding Peters' shooting, contrary to Ward's statement to the authorities, again has set District Attorney Weeks and the police working on new clues which may bring them to a solution of this strange mystery.

The Manhattan police were brought into the case with the newest developments. They are seeking a woman described by the waiter who told of her attempt to hire him to assassinate Ward. At the same time the local authorities are questioning closely friends of Ward supposed to have been at his home at a bridge party, the night preceding the shooting of Peters.

Another mysterious report has come to the police for probing. This is to the effect that Peters had two \$500 bills, obtained in some unexplained manner, and that she had given them to the waiter who told of her attempt to hire him to assassinate Ward. At the same time the local authorities are questioning closely friends of Ward supposed to have been at his home at a bridge party, the night preceding the shooting of Peters.

The police of the West Sixty-sixth street station, Manhattan, told the White Plains police that a waiter, whose name has not been made public, reported to them last night that a young and stylishly dressed woman, after calling at the restaurant for a waiter, had told him she had a job for him to do and that she was \$500 in it for the man who had the nerve to carry it out.

The waiter, who the police answered, "What's the job?" "I want to get a guy in New Rochelle I want to get," the waiter said his strange answer.

"Get, how?" the waiter queried. "Get right, I mean," she said to have replied, "You go and shoot him and the waiter," the waiter said his strange answer.

"Who's the guy?" the waiter said his strange answer. "I want to get a guy in New Rochelle I want to get," the waiter said his strange answer.

"I want to get a guy in New Rochelle I want to get," the waiter said his strange answer. "I want to get a guy in New Rochelle I want to get," the waiter said his strange answer.

Prospects of Loan Has Reconciled the Coalition Parties—They Will Now Support the Cabinet.

Berlin, May 28 (By the A. P.)—The immediate prospect of an international loan appears to have accelerated Germany's acceptance of the terms laid down by the reparations commission for May 31. Although the nature, the volume and the conditions under which foreign financial relief for Germany is likely to be forthcoming remain unannounced, or are purely conjectural, it is evident that the cabinet is now decisively influenced by the prospects of such a loan, and on the strength of this succeeded in reconciling the coalition parties to yield support to the cabinet.

Not since its many conflicts with the allies and the reparations commission began has the cabinet succeeded in yielding to the cabinet's demands for even the slightest concessions. The cabinet's position is now decisively influenced by the prospects of such a loan, and on the strength of this succeeded in reconciling the coalition parties to yield support to the cabinet.
